

Off Road Vehicle Use

The City of McFarland has been experiencing an increase in Off Highway Vehicle (OHV) use in city streets, public parks, recreational areas and residential neighborhoods. This activity is inherently dangerous to pedestrians, bicyclists, children in playground areas and citizens in recreational areas. It also presents a danger to motorists on the roadway.

It is illegal and unsafe to drive any Off Road Vehicles on city streets. OHV owners and riders need to be familiar with the law and use recommended safety equipment when operating an Off Road Vehicle.

The McFarland Police Department strongly encourages all owners and operators of Off Road Vehicles (Razors, Can-Ams, four and three wheel vehicles) to respect the community, it's citizens and adhere to all safety and traffic laws. With your cooperation, we can maintain a safe community for all to enjoy.
